

## Golden Nugget Awards – January 2019

### Area 11

#### **Sherby Price and Agnes Douglas**

Reason for nomination: On 12/12/2018 the water was not working in Rowe Arts Building since the day before. When Ms. Price and Ms. Douglas came into the area they took it upon themselves to carry buckets of water from other areas to be able to clean the restrooms that had been setting without water since the day before at 3pm. This was going above and beyond the description of their jobs and I think they deserve some recognition.

### Area 12

#### **Linda Wiley**

Reason for nomination: Linda was recently assigned to clean the second floor of Facilities Management which includes the associate vice chancellor's suite. Our new associate vice chancellor arrived November 30 after the office being vacant three months. With little notice from me, she gave the office extra care the day after it was painted. This included moving furniture to vacuum the corners and against the walls - that furniture had not been moved since we moved into this building 12-13 years ago. She cleaned the windows that were dingy. I appreciate her extra care and attention as we welcomed our new associate vice chancellor. Regards, Beverly
