| 11/3/2025 | Robert Kline | CEE | 8 | Bob went above and beyond by working with Dave Biela to power wash our EPIC building! They removed a noticeable water stain and grimy buildup from the front of EPIC and cleaned the stone on the planters and walls in the back. They had gotten very discolored and blackened and were quite frankly, an eyesore. These two took it upon themselves to clean it up. Students are now back to sitting on the wall and they have restored the beauty of our building. They not only showed pride in EPIC, but in being Niners! |

| 11/7/2025 | Rochelle Holder | Office of Assessment and Accreditation | 1 | Rochelle helped a person who was trying to deliver multiple packages to a department in another building. Unfortunately, the gentleman did not speak English and communication was a challenge. Additionally, no members of the department were available to accept the packages. When the delivery person's battery died, she tried to find a charger for him. She stayed with him until his supervisor approved that he could leave the packages with our office. Eventually, she was able to contact a member of the department to come and pick up the packages. This effort took a minimum of two hours from the work she was scheduled to do. Rochelle is a great example of how a person can jump in and help someone in need. |
